

SC Endeavors Registry

Overview of the New Professional Profile Page

New Look, Same System

We're excited to share an update to the SC Endeavors Registry system! The profile page has been redesigned to make it easier to find what you need and move around the system. Information that was previously located under tabs are now displayed on cards on the profile page for quicker access. Although the page looks different, everything works the same as before – just in a more user-friendly way. Your login information and process have not changed. After logging in, you'll see the updated profile page.

New how-to guides are being created to help you get familiar with the changes.
