

TEACH Early Childhood® South Carolina FY25 Results

From birth to age 8, a child's brain is developing faster than at any other time in their life. The experiences a child has in those first eight years provide a foundation for their future. Children who receive high-quality early learning experiences are more likely to live healthier lives, earn higher wages and contribute to society.

The quality of early care and education a child receives is directly linked to the education and compensation of early educators. In South Carolina, many early educators do not have higher education degrees and many earn less than \$15 an hour. The TEACH Early Childhood® Program awards educational scholarships to early education professionals to address the key issues of under-education, poor compensation and high turnover in the workforce. All TEACH Early Childhood® scholarships link increased education with higher compensation and retention. Scholarship recipients and their sponsoring early care and education programs share the cost.

In South Carolina, **SC Endeavors** administers the TEACH Early Childhood® Program. In FY24, the program helped **469 early education professionals** increase their education. TEACH recipients show powerful dedication to remaining in their professions with turnover rates far less than the national average. This year alone, **17,692 of South Carolina's children** were cared for in settings that participated in TEACH.

The TEACH Early Childhood® Program is heralded by experts in the field as a national leader in creating solutions for early childhood education workforce challenges. National outcomes can be found in the TEACH Early Childhood® 2023-2024 Annual National Program Report.

EDUCATION

- Recipients on associate degree scholarships completed an average of **12.69** credits per contract.
- Recipients on bachelor's degree scholarships completed an average of **14.60** credits per contract.
